Rx Opioids (%)

- **32.9% - 58.0%**
- **12.9% - 32.8%**
- **0.0% - 12.8%**

Map Information:

This map represents the percentage of unduplicated clients in treatment who list prescription opioids as a primary drug of choice by county of residence. In SFY 2008, 3,182 clients (4.8%) listed this substance as a primary drug of choice. Counties with the highest percentages of clients reporting prescription opioids as a drug of choice were Scioto (58.0%), Lawrence (44.7%) and Pike (29.3%). Five counties had no clients reporting this drug as a primary drug of choice.

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
