# Prescription Opioids as a Primary Drug of Choice

## Ohio Behavioral Health Module - State Fiscal Year (SFY) 2012

**Legend**

**ADAMHS Board**

**Rx Opioids (%)**

- **32.9% - 72.0%**
- **12.9% - 32.8%**
- **2.6% - 12.8%**

**Map Information:**

This map represents the percentage of unduplicated clients in treatment who list prescription opioids as a primary drug of choice by county of residence. In SFY 2012, 7,005 clients (12.5%) listed this substance as a primary drug of choice. Counties with the highest percentages of clients reporting prescription opioids were Lawrence (72.0%), Scioto (62.6%) and Jackson (54.7%). Van Wert (2.6%), Hancock (3.3%) and Darke (4.2%) counties had the fewest clients reporting this drug of choice.

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
