Medication Assisted Treatment in Ohio

OARRS - Doses per 100 people in 2009

Legend

ADAMHS Board

Doses per 100 people

- 2.4 - 72.8
- 72.9 - 171.9
- 172.0 - 184.0

Map Information:

This map represents county-level data on drugs commonly used in medication assisted treatment (MAT). It presents MAT doses per 100 people for all buprenorphine drugs like Suboxone® and Subutex®. In 2009, counties with the highest MAT doses per 100 people were Meigs (184.0), Scioto (168.1) and Gallia (165.7). Counties with the lowest MAT doses per 100 people were Mercer (2.4), Wyandot (4.8) and Morgan (7.2). All buprenorphine solutions are excluded from the analyses. Additionally, Butrans is excluded because it is primarily used for pain management and not MAT.

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
