

Serving Service Members and Veterans on Campus

This full-day core competency training for clinicians addresses cultural and clinical concerns of student Veterans and Service members at universities and colleges. The morning session presents a comprehensive overview of challenges associated with the deployment cycle, campus reintegration and outreach strategies for this unique group of students. Staff from non-clinical departments such as student affairs, financial aid, and disability services are strongly encouraged to join in the morning. The afternoon session is intended for clinical staff and provides an overview of culturally-informed treatment approaches for common deployment-related problems including posttraumatic stress disorder (PTSD), traumatic brain injury (TBI), sleep problems, and suicidal behavior.

The Center for Deployment Psychology (CDP) is pleased to present an exciting training opportunity that will, for the first time ever, be offered online via Adobe Connect.

DATE: Friday, November 4, 2016

TIME: 8:30am - 5:30pm EDT (training starts promptly at 9:00am)

HOW: via Adobe Connect.
(test your connection prior to registering at <http://tinyurl.com/hxd2huc>)

REGISTER BY: Wednesday, November, 2, 2016.
