

Grants Funding Management System Planned Production Release

This is notification that, on December 28, 2016, a production release is scheduled for the Grants Funding Management System (GFMS).

Functionality scheduled for release

- The Project Narrative screen, part of New Grant Application process:
 - Typing the allowed maximum characters and clicking the Next button resulted in an error message. Now, the Project Narrative screen allows use of maximum character limit
- The Assurance and Disbursement Request pages, Log Out error:
 - When the Assurance and Disbursement Request pages were displayed, selection of Log Out, produced an error. Log Out should result in display of the iPortal's standard login screen. Now, when Log Out is selected, the iPortal login screen is presented
- The Search Grant Applications page, within Application:
 - The permissions/access designated for Boards would not allow use of Grant Number as search criteria. Now, Grant Number, as search criteria, is valid for Boards
- The Implementation Plan wizard, within Application:
 - Specifying numbers more than four digits in length for estimation of people served, resulted in an error page. A validation message should have displayed. Now, estimations up to 9,000 (for people served) is allowed
 - The initial screen (used to trigger the Implementation Plan wizard), displayed the wrong information for both the Modified By and the Last Modified columns. Specifically, Modified By column displayed information that was intended for display in the Last Modified column, and vice versa
- The Line item Budget page, within Application:
 - A validation message is displayed, when the MHAS Budget field is left blank but text is specified for the Narrative field
- The Show My Allocations selection menu, on the Home page:
 - Allocation does not update when Allocation amount is edited
 - Some statuses (example: 'invoiced,' 'paid,' etc) were not represented for allocations and application disbursements

- The Federal Requirements page, within Application:
 - Permissions/Access affiliated with Boards allowed information for executives to be changed, from View mode
- The Grant Report page, within Reports:
 - The side navigation showed two Summary Overview options. There is now only one Summary Overview option in the side navigation
 - The Fiscal Year dropdown list did not show Select as the default option
 - The Search button was named Filter. Now, it is named Search in order to maintain consistency for GFMS
- The Project Documentation page, within Application:
 - Designation 'Action' was missing from the headers, for uploaded documents
