

## Grants Funding Management System Planned Production Release

This communication is intended to notify users of the Grants Funding Management System (GFMS) application of an upcoming production release targeted for October 28, 2016.

### External Users Functionality scheduled for release

- **Show My Applications:**
  - As user with the Applicant role was seeing view link for their draft applications instead of the edit link. They will now see the edit link for all their draft grant and allocation applications.
  - The awarded amount was not show up on the dashboard for all board approved grants. The awarded amount is now showing for board approved grants.
- **Grant Approval:**
  - The system was pulling all Board local funding sources no matter the fiscal year they were created in. Now, the system only shows Board local funding sourced for the current fiscal year of the grant.
  - The report frequency on the grant approval page was not displaying after the grant was approved. Now, the selected report frequency is displaying after the grant is approved.
- **Federal Requirements:**
  - On the federal requirements page a user was receiving a general error message when a required file was missing on the page. They will now see an error message next to missing or incorrect field.
- **Implementation plan:**
  - When a user was trying to change a project model type of an existing implementation, they would receive and error message once they clicked on Choose Your NOM or Save and finish later. Users can now change project models and continue fill out their implementation plan without receiving an error message.
- **Allocation Documentation:**
  - In Annual Financial Reporting section, the audit completed fields would wipe out when you uploaded a document and would prevent the user for uploading documents. The audit completed fields are now staying and allowing users to upload documents.
- **Face Sheet:**
  - On the face sheet multiple project areas were displaying with the same name. Now, the project areas will only display project areas for the selected service type.
  - Not able to create a face sheet application and displays a validation message even the leads are available

## Promoting wellness and recovery

---

John R. Kasich, Governor • Tracy J. Plouck, Director • 30 E. Broad St. • Columbus, OH 43215 • (614) 466-2596 • [mha.ohio.gov](http://mha.ohio.gov)

- When a user reopened a grant in draft status, that was requesting a billion dollars or more, they would receive an error message when trying to move forward in their application. Now, a user is able to edit and continue on in their grant applications.

All GFMS Release Notes can be found by clicking this link: [OhioMHAS GFMS External Release Notes](#)

For GFMS questions, please contact your Project Lead. Board questions can be addressed by contacting Fiscal at [MHAS\\_FiscalReview@mha.ohio.gov](mailto:MHAS_FiscalReview@mha.ohio.gov). Items related to iPortal or logging into the system can be addressed by contacting the OhioMHAS Helpdesk at 614.466.1483 or emailing them at [MHAHelpDesk@mha.ohio.gov](mailto:MHAHelpDesk@mha.ohio.gov).
