

AGENCY	Population Served	Ages Served	TIC Knowledge	Trauma seen in those served	Trauma Assessments used	Types of Treatment to those who have experienced trauma	Needs of the SE region	Specific TIC practices willing to share	Awareness of others using TIC in area	Involved in regional planning		
OU Heritage College of Osteopathic Medicine (Project Launch)	Children 0-8 and their families	Pregnant mothers and young children	Over the past five years, we've been training, implementing, and practicing evidence based services that are designed to treat and focus on trauma. Trauma Informed care has several different definitions depending on who is delivering the services (i.e. primary care vs mental health)	Intergenerational domestic violence, incest, violence, accidents. Often, in the Appalachian region, domestic abuse and incest are simply a part of life and unspoken	We work with multiple agencies in the region of Athens, Hocking, Meigs, and Vinton Counties. Some of the trauma screenings include: ACE studies	We train in Dr. Perry's Neurodevelopment of Trauma (NCTS), TF-CBT, Parent Child Interaction Therapy, and Motivational Interviewing	Intergenerational trauma!! Domestic Violence, Incest	Our workforce development and agency-wide trauma screening protocols	<a href="http://www.ipacohio.org">www.ipacohio.org</a>	Yes!	Dawn Graham	<a href="mailto:grahamd@ohio.edu">grahamd@ohio.edu</a>
Cambridge Developmental Center/Ohio Department of DD	Adults (18 yrs. And older) diagnosed with Moderate to profound developmental disabilities and co-occurring mental illness	20-80 yrs., with increasing number of young males (20-30 yrs.)	<b>limited</b> in TIC evidence-based clinical practices; <b>Moderate</b> knowledge in terms of training in TI Awareness (positive culture; person-centered thinking; relationship-building; staff training in relationship-building & individualized procedures for dealing with trauma "triggers").	Loss(abandonment issues of family/care-giver/significant relationships; <b>TREND</b> Loss of home; <b>TREND</b> Law-enforcement encounters(tasered, cuffed, restrained, taken from home, etc.); <b>TREND</b> Sexual Abuse by family/care-giver; Physical abuse family/care-giver; Physical restraint; Psychological abuse due to person's limited ability to understand/process experiences; Sense of powerlessness	No formal trauma assessments. Trauma is assessed by psychiatrist/psychologist/social worker/direct support staff as part of overall assessment.	Psychological counseling for those who can benefit (based on cognitive abilities); Psychiatric treatment for those who benefit; group counseling; supportive living environment/relationship building; supportive debriefing when experiencing "triggers"; formal behavioral planning includes individualized trauma-informed procedures for direct support staff	Training/education withing all human services/governmental/law enforcement agencies; being informed of available trainings, and TIC/Awareness efforts across state and nationally; being informed of available on-line TIC resources for training; networking, etc.	Positive culture initiative as a cultural philosophy for care/relationship	No. No one other than ABH	Yes, to the extent possible; probably not in a leadership role	Cathy Ballinger	<a href="mailto:Cathleen.Ballinger@dd.ohio.gov">Cathleen.Ballinger@dd.ohio.gov</a>

Perry Behavioral Health Choices and Stanton Villa	Outpatient drug treatment at PBHC including men, women and youth. Stanton Villa is a residential drug treatment serving adult women	Outpatient serves all ages, teens to adults. Stanton Villa women 18 and up.	We focus on ACE Surveys and provide TIC as a regular practice, particular to Stanton Villa	Outpatient is harder to gauge and get accurate information on. SV has nearly 98% dealing with some type of trauma.	ACE surveys primarily. On the subject of ACE surveys, the Ohio Women's Network has been keeping records on TIC and ACE surveys for a number of years and would have a rich source of data on the subject.	Individual and group counseling, classes, and exercises	Broad assessment and identification of trauma issues. Our counselors have been engaged in TIC trainings. It has enriched our programming.	We as an organization are open to networking and collaboration. I can't specifically identify what would be a valuable sharing item.	Not specifically in this area, but as I mentioned previously, the Ohio Women's Network, which is made up of women-specific treatment and prevention programs that are funded via SAPT block grants.	If needed, I would help.	Theresa Snyder	<a href="mailto:tsnyder@perrybhc.org">tsnyder@perrybhc.org</a>
Ohio Department of Health-CFHS program	Our CFHS program services pregnant women, women of child-bearing age, and children ages 0-21	Our CFHS program serves child-bearing age women, children ages 0-21	Basic knowledge	We are more of an administrative agency. We do not directly serve a client. We provide funding to local counties to provide services working with pregnant women, women of child-bearing age, and children 0-21.	We currently do not have a formalized standard in place regarding trauma assessments. At a county level they may have their own form	We provide funding for agencies to provide infrastructure for referral to mental health and/or addictions services	N/A	N/A	Blank	Blank	blank	blank
Hocking County Family & Children First Council	Multi-system needs children and families	We target ages 0-21. Highest population who utilize our service coordination is ages 10-13	interested in learning more	poverty, neglect, physical abuse, sexual abuse, drugs and alcohol abuse of family members	We do not, as we are not a service provider. We help to coordinate services, and agencies providing service complete assessments	We do not provide direct service	Training, resource, and funding available to treatment providers and families to access appropriate care	blank	blank	I would be interested to learn more	Victoria Hilliard	<a href="mailto:fcfc@co.hocking.oh.us">fcfc@co.hocking.oh.us</a>
Noble County Family and Children First Council	Noble County families and children	Children, ages 0-21 years old	Limited, only the information received from our OFCFC May Regional meeting	Abuse, neglect, alcohol, drugs, sexual abuse, broken families	NO	Refer to agencies that provide services for these individuals	more information, what services are available and training	not at this time	Blank	yes	Judy Weisend, Noble County FCFC Coordinator	<a href="mailto:judy.weisend@noblecoc.org">judy.weisend@noblecoc.org</a>
Ohio Department of Health	All Ohioans and one Division focusing on children/adolescent/women's health	prenatal women and children birth to eight	significant but more education is needed	Not sure as I work at the State program and policy level. Trends have been identified	Yes	Fund programs that provide screening, assessment, therapy and counseling	Impact of poverty, low education, substance abuse, domestic violence and broken families	Federal Early Childhood Comprehensive System grant is focusing on trauma awareness tools	Have provided names already to Kim Kehl at ODMHAS	Yes	Harvey Doremus	<a href="mailto:harvey.doremus@odh.ohio.gov">harvey.doremus@odh.ohio.gov</a>

<p>Perry County Children Services Board</p>	<p>Children and families</p>	<p>0-18 (or 21 for DD population) and parents</p>	<p>rudimentary for line staff</p>	<p>Major issues surrounding substance abuse (physical violence, neglect, emotional) Numerous older teens entering care with childhood trauma due to substance abuse. Significant increase in child victims of serious maltreatment-multiple bone fractures etc. . Increase in termination of parental rights.</p>	<p>No-standard statewide assessments</p>	<p>Refer to mental health services</p>	<p>I would like to see the implementation of a home based treatment team to deal with the significantly at risk population. This team would consist of therapists, case managers, substance abuse counselors and any other community resources applicable to the family. Treatment in the home would eliminate removal into foster care (increased trauma). In addition, most family issues originate in the</p>	<p>not at this time</p>	<p>no, but a lot of interest</p>	<p>yes</p>	<p>Rick Glass</p>	<p><a href="mailto:Rick.Glass@jfs.ohio.gov">Rick.Glass@jfs.ohio.gov</a> v</p>
<p>Tri-County Help Center, Inc. (TCHC)</p>	<p>We services victims of domestic violence, sexual assault and mental illness in Belmont/Harrison/Monroe Counties</p>	<p>ages 5 and up</p>	<p>Our agency follows the Ohio Domestic Violence Network's Best Practices on Trauma Informed Care for Victims of interpersonal violence</p>	<p>At TCHC we have seen victims of battering by partner, battering by parent, witness to battering of parent, victims of stranger/acquaintance/family member sexual assault, dating violence, stalking, child neglect and abuse, family members of murder victims, and family members of suicide</p>	<p>TCHC utilizes the DSM V, as well as those on OOVN's Trauma Informed Care manual</p>	<p>We provide professional counseling and psychiatric services</p>	<p>TIC training as it relates to the Appalachian population</p>	<p>Not sure what the rest of the SE region is doing, but would like to hear</p>	<p>Harmony House</p>	<p>I would like to be involved but would also need to know more about the time commitment this would entail</p>	<p>Cathy J. Campbell, MEd., PLCC, Executive Director</p>	<p><a href="mailto:caticam@sbcglobal.net">caticam@sbcglobal.net</a> i</p>

Alcohol and Drug Services of Guernsey County	Those experiencing alcohol and substance abuse and addiction. Prevention/Education is provided to the general public and school age children.	The median age group is between 18-40	The Director is in the process of becoming a trauma and loss specialist and trauma informed assessment	Early Childhood and early adult trauma untreated	no	appropriate referral to mental health	Awareness trainings and types of specific trauma interventions	no	no	yes	Karen Wiggins	<a href="mailto:Kwiggins@firewireintenet.com">Kwiggins@firewireintenet.com</a>
Meigs County Family & Children First Council	Children ages 0-21, and their families who are involved in more than one system	0-21 years	We recently participated in the CARE training for trauma and have another training being scheduled for December. Trainings stem from a Pediatric Trauma/Foster care Team Pathways Program through IPAC (grant funded) in Meigs County.	Suicide in the family, children diagnosed with cancer or other life threatening illness, child abuse/neglect, removal from home (foster or kinship care), drug abuse	Not sure as I work at the State program and policy level. Trends have been identified	Our agency provides service coordination rather than treatment. However, we work with multiple agencies in the county including mental health, children services, schools, AoD agencies, and juvenile court.	Training opportunities and open communication within the region	no	no	possibly, as time allows. More information regarding time commitment would be beneficial in making a decision	Brooke Pauley	<a href="mailto:meigsfcfc@gmail.com">meigsfcfc@gmail.com</a>
Muskingum Behavioral Health	Substance abuse	11-70 years of age	Have had training on it	TBI; physical abuse; sexual abuse; PTSD. Many female clients have physical abuse, sexual abuse and PTSD; have has some military that have PTSD; some clients have had TBI from being physically abused as children; some client have TBI from accidents	We can but do not do as a regular assessment	Reflective listening, CBT, MI, experiential therapy and others	Therapists that are willing to listen	Same treatment we do with most of our clients	Not sure of any others	Do not have time	Linda Whitehart	<a href="mailto:lwhitehart@mbhealth.org">lwhitehart@mbhealth.org</a>

Six County Crisis Stabilization Unit	Severly Mentall Ill; Dually Diagnosed, People in Crisis	18-70 years of age	It would seem to be somewhat minimal. Although staff recognize there is trauma in the client's background they do not seem to have much understanding of how this impacts the client's reaction to treatment.	Many have experienced physical, emotion, sexual abuse. Soemtimes there is prejudice and bullying types of experiences.	no	Sometimes our clients attend a Trauma & Loss group in the PH program. Individual counseling.	Education regarding what Trauma Informed Care is and how this applies to the service delivery systemb being able to engage clients in treatment. This is an article which I found that I thought was excellent and offered ideas of what are needed in our region. <a href="http://mhsinc.org/files/file/Online%20Training%20Handouts/Principles%20of%20trauma%20informed%20services%20for%20women.pdf">http://mhsinc.org/files/file/Online%20Training%20Handouts/Principles%20of%20trauma%20informed%20services%20for%20women.pdf</a>	We are doing weekly Crisis Community Support Group which works with clients who have experienced trauma in their past and helping them to develop confidence in accessing community services, and how safe are they, and how do they use them.	No	I would like to have one of my staff members, Jessica Gaiters participate in the regional TIC Collaborative.	Bonnie Taylor	<a href="mailto:btaylor@sixcounty.org">btaylor@sixcounty.org</a>
Coshocton Behavioral Health Choices	AOD use disordered	We will work with any age, but typically teens to 50s	Very little	Abuse of all types, victims of crime, PTSD, accidents, war	no	Talk therapy, individual counseling, group therapy, couples/family counseling	unsure	no	blank	yes	Tyra Hixon LISW-S, LICDC CS	<a href="mailto:thixon@coshoctonbhc.org">thixon@coshoctonbhc.org</a>

<p>Mid-Ohio Psychological Services, Inc.</p>	<p>Children, adolescents, teenagers and adults who are primarily Medicaid insured. We work with individuals who have general mental health issues and/or Aod issues.</p>	<p>We serve clients ages 5 and up. Approximately 50% of our clients are under 18 and 50% are over the age of 18.</p>	<p>Our agency is involved in a county-wide initiative to build a trauma-informed care approach for the local community. We have several staff that have training experience in acute and long-term trauma-based treatment (CFTSI and TF-CBT)</p>	<p>Sexual and physical abuse, neglect, victims and witnesses of domestic violence</p>	<p>As part of the CFTSI (Child and Family Traumatic Stress Intervention) treatment implemented at the agency we utilize the CPSS (Child PTSD Symptom Scale), THQ (Trauma History Questionnaire), MFQ (Mood and Feelings Questionnaire), UCLA PTSD Questionnaire, and the PTSD-RI (PTSD-Reaction Index)</p>	<p>Trauma Focused-CBT, CFTSI, CBT</p>	<p>Education to individuals about trauma informed care and creating a community based approach and understanding of the issues that we are faced with in regards to trauma</p>	<p>blank</p>	<p>Becky Edwards with the Child, Adult, and Family First Council is leading the TIC initiative in our county. Her email is bedwards@ohiopps.org</p>	<p>potentially, based on scheduling availability.</p>	<p>Miranda Zircher, MS, LPCC-S</p>	<p><a href="mailto:mirandazircher@mops.ohio.com">mirandazircher@mops.ohio.com</a></p>
<p>Appalachian Behavioral Healthcare (ABH)</p>	<p>We serve adults who are mentally ill and meet O.R.C. criteria for inpatient psychiatric hospitalization</p>	<p>We serve adults (18 years old or older)</p>	<p>ABH has received Trauma Informed Care training from SAMSHA. We have a monthly Trauma Informed Care Committee looking at ways of improving the services we provide and create a more trauma informed care environment within ABH.</p>	<p>We serve people who have a severe mental illness. In addition, some have a history of physical, sexual, and emotional abuse.</p>	<p>As part of the Social Work assessment, we include a human trafficking screening tool. In addition the Social Work and Nursing assessments inquire about a person's history of abuse/trauma.</p>	<p>All of our patients (even those without trauma history) received individual and group services. These services are based on the patient's identified needs. Examples of some groups available to patients and which might also address trauma histories include: Coping Skills, Art Therapy, Music Therapy, Anger Management, and Relapse Prevention.</p>	<p>We would appreciate knowing what other mental health agencies are doing as it related to trauma informed care. There are likely initiatives or action steps that other agencies are doing that ABH could do as well</p>	<p>We would be happy to share what ABH is doing with the SE region. We are not sure if a hospital perspective would be useful to their agencies or not. ABH is in the initial stages of incorporating trauma informed care services/programs/environment. We believe we could gain more by listening to others share their experiences.</p>	<p>no</p>	<p>We would be happy to participate</p>	<p>Lori Brown, LISW-S Jennifer Schwirian, LISW-S Jennifer.Schwirian@mha.ohio.gov</p>	<p><a href="mailto:Lori.Brown@mha.ohio.gov">Lori.Brown@mha.ohio.gov</a></p>
