

OHIO'S 2014 OPIATE CONFERENCE

*June 30-July 1, 2014
Hyatt Regency Columbus
350 N. High Street
Columbus, Ohio 43215*

Hosted By:

Ohio Association of

COUNTY
BEHAVIORAL
HEALTH
AUTHORITIES

In Partnership With:

Opportunities for Ohioans
with Disabilities

OHIO'S 2014 OPIATE CONFERENCE: DON'T GET ME STARTED

Ohio's 2014 Opiate Conference: Don't Get Me Started, hosted by the Ohio Association of County Behavioral Health Authorities, in partnership with the Ohio Department of Mental Health and Addiction Services and the Opportunities for Ohioans with Disabilities Agency, will take place on June 30-July 1, 214 in Columbus, Ohio. This conference will bring together a variety of professionals from across Ohio to learn about Ohio's opiate epidemic and continue developing solutions in practices and communities.

The event will offer over 20 breakout sessions that cover an assortment of areas that are all impacted by opiate usage in Ohio. A pre-conference offering DATA 2000 training to qualified physicians will occur on June 30th. This conference has a long standing history of being an immense educational opportunity for all who attend, and we hope to see you there!

Register to attend *Ohio's 2014 Opiate Conference: Don't Get Me Started* at:
www.oacbha.org

The Ohio Association of County Behavioral Health Authorities would like to extend a special thank you to the following conference sponsors:

PLATINUM SPONSOR

DATA 2000

June 30, 2014

Christina Delos Reyes, MD, Director, Addiction Psychiatry, University Hospitals Case Medical Center
Sybil Marsh, MA, MD, Associate Professor of Family Medicine, University Hospitals Case Medical Center

The Drug Addiction and Treatment Act of 2000 allows for waiver authority for physicians who dispense or prescribe certain narcotic drugs for maintenance treatment or detoxification treatment for opiate users. Completion of the DATA 2000 training permits qualified and interested physicians to obtain a waiver from the separate registration requirements of the Narcotic Addict Treatment Act to treat opiate addiction with Schedule III, IV, and V opiate medications or combinations of such medications that have been specifically approved by the Food and Drug Administration (FDA) for that indication. Such medications may be prescribed and dispensed. Physicians participating in this training will be required to complete a 4-hour at home educational session in addition to attending this half day training. Physicians will be required to complete a quiz at the end of the at-home training, which will be required for admission to the June 30th workshop.

REQUIREMENTS FOR PARTICIPATION IN THE DATA 2000 TRAINING:

In order to qualify for a waiver under DATA 2000, physicians must hold a current State medical license, a valid DEA registration number, and must meet one or more of the following conditions:

- The physician holds a subspecialty board certification in addiction psychiatry from the American Board of Medical Specialties.
- The physician holds an addiction certification from the American Society of Addiction Medicine.
- The physician holds a subspecialty board certification in addiction medicine from the American Osteopathic Association.
- The physician has completed not less than eight hours of training with respect to the treatment and management of opioid-addicted patients. This training can be provided through classroom situations, seminars at professional society meetings, electronic communications, or otherwise. The training must be sponsored by one of five organizations authorized in the DATA 2000 legislation to sponsor such training, or by any other organization that the Secretary of the Department of Health and Human Services (the Secretary) determines to be appropriate.
- The physician has participated as an investigator in one or more clinical trials leading to the approval of a narcotic drug in Schedule III, IV, or V for maintenance or detoxification treatment, as demonstrated by a statement submitted to the Secretary by the sponsor of such approved drug.
- The physician has other training or experience, considered by the State medical licensing board (of the State in which the physician will provide maintenance or detoxification treatment) to demonstrate the ability of the physician to treat and manage opiate-addicted patients.
- The physician has other training or experience the Secretary considers demonstrates the ability of the physician to treat and manage opiate-addicted patients.

In addition, physicians must attest that they have the capacity to refer addiction treatment patients for appropriate counseling and other non-pharmacologic therapies, and that they will not have more than 30 patients on such addiction treatment at any one time unless, not sooner than one year after the date on which the practitioner submitted the initial notification, the practitioner submits a second notification to the Secretary of the need and intent of the practitioner to treat up to 100 patients.

**Once registration and payment have been confirmed, OACBHA will make arrangements to provide you with the pre-workshop materials.*

OHIO'S 2014 OPIATE CONFERENCE: DON'T GET ME STARTED JULY 1, 2014

Agenda

07:30am-09:00am	Registration
09:00am-10:30am	General Session
10:30am-10:45am	Break (Visit Exhibitors)
10:45am-11:45pm	Breakout Sessions #1-8
12:00pm-1:00pm	Lunch and General Session
01:15pm-02:45pm	Breakout Sessions #9-16
02:45pm-03:00pm	Break (Visit Exhibitors)
03:00pm-04:30pm	Breakout Sessions #17-24

BREAKOUT SESSIONS

10:45am-11:45am

Session #1

Don't Get Me Started

Dontavius Jarrells, Community Engagement & Advocacy Coordinator, Ohio Association of County Behavioral Health Authorities

The Don't Get Me Started (DGMS) campaign draws on collaborative community outreach initiatives and engagement strategies to increase awareness and the openness to discuss the issue of prescription drug misuse and abuse among youth and youth adults. Attendees will learn about the past, present, and future steps of DGMS. This session will also preview videos that were entered into the DGMS' first annual music and public service announcement video contest. Video contest winners will be announced during the lunch general session.

Session #2

Medication Assisted Treatment Overview

Christina Delos Reyes, MD, Program Director, Addiction Psychiatry, University Hospitals Case Medical Center

Medication-assisted treatment for opiate dependence includes three distinct interventions: naltrexone, methadone and buprenorphine. Participants in this session will learn when and how to use these medications to help individuals with opiate dependence. This beginners' session is open to all participants. There will be time for case discussions as well as a question-and-answer session.

Session #3

Opiates and the Impact on Child Welfare

Stephanie Ranade-Krider, Opiate Program Manager, Governor's Cabinet Opiate Action Team, Ohio Department of Mental Health and Addiction Services

Roger Ward, Data Project Manager, Ohio Department Job and Family Services

This session will provide data and findings on child abuse and neglect when the topics are associated with parents that have an addiction to an opiate prescription medication or heroin. Participants will learn how the state is using this data to inform child welfare and opiate initiatives.

Session #4

M.O.M.S. Pilot Project

The Maternal Opiate Medical Support (MOMS) Project started by OhioMHAS – through the Office of Health Transformation – was designed to improve fetal outcomes, improve family stability and reduce the costs of Neonatal Abstinence Syndrome (NAS) to Ohio's Medicaid program by providing treatment, including Medication Assisted Treatment (MAT), to pregnant mothers who are addicted to opiates during and after pregnancy. Attendees will hear about the implementation of this pilot project.

BREAKOUT SESSIONS

10:45am-11:45am

Session #5

Pharmacy Board Update: OARRS, Compliance, and Law Enforcement

Kevin J. Mitchell, RPh, President, Ohio State Board of Pharmacy

Eric Griffin, Compliance Supervisor, Ohio State Board of Pharmacy

This session will provide an update using data mined from the OARRS system and discuss its current and possible future capabilities. Participants will learn about the status of current legislation designed to help combat the opiate problem. A presentation from the compliance and law enforcement arm of the Pharmacy Board will provide participants with an understanding of the role of Pharmacy Board's current and future initiatives, progress, and accomplishments. The session will also discuss other strategies that the Pharmacy Board is involved with on both the state and national levels.

Session #6

Community Response to the Opiate Epidemic

Cuyahoga County ADAMHS Board

Attendees will hear from various communities throughout the state who are working on awareness and engagement activities and campaigns designed to combat the prescription medication and heroin abuse in their communities.

Session #7

How to Properly Prescribe for Clients with Chronic Pain

Amol Soin, MD, Medical Director, The Ohio Pain Clinic

A pain management doctor will explain the newest and most advanced techniques to treat pain management. His philosophy incorporates an evidenced based, multidisciplinary approach to treat various pain disorders in order to enhance a patient's quality of life without reliance on addicting narcotic pain medications. Participants will also gain an understanding of alternatives to the use of opiates for the management of pain.

Session #8

A Clean Exchange: How to Implement an Effective Needle Exchange Program

Judith Feinberg, MD, Professor of Internal Medicine, University of Cincinnati College of Medicine

This session will provide attendees with an overview of intravenous drug use including heroin, and the possible implications associated with needle usage, including HIV and Hepatitis C. This session will provide information on needle exchange programs, including implementation. Attendees will also be provided local and national data pertaining to drug use and needle exchange programs.

BREAKOUT SESSIONS

1:15pm-2:45pm

Session #9

Building a Network of Support for Students in Recovery

Mike DeAgro, Graduate Student Coordinator, Case Western Reserve University's Recovery House

Sarah Nerad, Graduate Administrative Associate, The Ohio State University

Collegiate Recovery Programs are a growing trend on college campuses. Ohio schools are recognizing the need for and benefits of supporting students in recovery. This session will provide an overview of the history of these programs and highlight two Ohio schools that are creating a culture of recovery on their campus.

Session #10

Developing a Recovery-Oriented Workforce Readiness Program

Richard Mason, Employment Director, House of Hope, Inc.

During this session, attendees will hear from an employment director who designed and developed an employment program working with local employers and helping individuals in recovery enter/reenter the workforce. Attendees will also hear from an individual in recovery that became employed after his successful completion of this workforce readiness program.

Session #11

Integrating Care in a Recovery Practice

This session will provide participants with an overview of a recovery practice's experience as they worked to transform the services provided by their agency. This practice has incorporated medication-assisted treatment and screening, brief intervention and referral to treatment (SBIRT) protocols into their integrated care practice. Participants will hear about the lessons learned during this practice transformation as well as information about the role of staff in recovery.

Session #12

Implementation of Project DAWN in Ohio's Regional Psychiatric Hospitals

Muhammad Momen, MD, Dip Mental Health, Lead Chief Clinical Officer, Northcoast Behavioral Healthcare

Joan Papp, MD, FACEP, MetroHealth Emergency Medicine

Alan Pires, RPh MNO MS, Director of Pharmacy Services, Northcoast Behavioral Healthcare

Project DAWN (Deaths Avoided with Naloxone) is an opiate overdose reversal program. In the fall of 2013, Project DAWN was expanded and began to be implemented at Ohio's Regional Psychiatric Hospitals, beginning at Northcoast Behavioral Healthcare (NBH) in Northfield. This presentation will provide participants with information about the nasal naloxone kits that are provided through this program, and how to use them. Additionally there will be a description and preliminary data regarding the implementation of Project DAWN in an inpatient setting at NBH.

BREAKOUT SESSIONS

1:15pm-2:45pm

Session #13

Transforming Prescribing Protocols at the Practice Level

Becky Wilkins, Associate Director, OSU Wexner Medical Center, Rardin Family Practice

Attendees will have the opportunity to learn about how one high-volume clinic matured from having a genuine prescribing problem, to implementing programming that gives prescribers the information they need in order to make good decisions, implement a non-punitive degree of accountability and oversight, and give patients clear expectations of their responsibilities.

Session #14

Start Talking!

Sarah Smith, Executive Policy and Projects Coordinator, Ohio Department of Aging

A new effort is underway across Ohio to prevent drug abuse among Ohio's most vulnerable citizens – children. Governor John R. Kasich and First Lady Karen W. Kasich have launched Start Talking! to give parents, guardians, educators and community leaders the tools to start the conversation with Ohio's youth about the importance of living healthy, drug-free lives. In this session attendees will learn about the Start Talking! initiative and its implementation throughout Ohio.

Session #15

My Recovery Story

This session will offer first hand perspectives of individuals in recovery from an opiate addiction. Participants will hear stories about the personal journeys of these individuals in recovery, and how they are able to successfully sustain their recovery.

Session #16

Opiates: Diversion of Prescription Pain Medication and Heroin

Commander Gary Cameron, Columbus Police Department Narcotics Bureau

Captain Richard S. Fambro, Criminal Patrol Commander, Ohio State Highway Patrol

Sergeant Shawn Wade, Detective, Delaware County Sheriff's Office

This presentation will cover the increasing presence of heroin and opiates in the criminal interdiction efforts of the Ohio State Highway Patrol, Columbus Police Department and Delaware County Sheriff's Office. Presenters will discuss current trends, availability, and their efforts to interdict heroin and opiates before they reach the communities of Ohio.

BREAKOUT SESSIONS

3:00pm-4:30pm

Session #17

“Workplace” the Newest Population in the GenerationRx to defeat Rx Abuse

Ken Hale, RPh, PhD, Assistant Dean, The Ohio State University College of Pharmacy

Dee Mason, BFA, ATR, Founder/CEO, Working Partners

Karen Pierce, MA, MSW, Managing Director of Policy and Training, Working Partners

The Generation Rx Initiative has built and promoted resources to special populations since 2007 with the intent to enhance medication safety and combat the increasing misuse and abuse of prescription drugs through educational prevention. This session will provide an overview of how GenerationRx has added resources focused on the workplace, including the *A Dose of Reality* campaign found which promotes drug-free workplace practices by empowering employer-employee collaboration through education and strategic support of safe and responsible medication practices.

Session #18

Medicaid Enrollment for Individuals Involved in the Criminal Justice System

In this session, attendees will have the opportunity to learn how to engage the criminal justice and forensic populations and assist them in the process of enrollment in Medicaid. As the opportunities made available by Medicaid expansion continue to roll-out throughout Ohio, this session will explore the benefits of efficiently enrolling individuals engaged with the criminal justice system into the Medicaid program.

Session #19

Addiction Treatment Pilot Project

The Honorable Fred Moses, Judge, Hocking County Municipal Court

The Honorable Scott N. Barrett, Judge, Hardin County Court of Common Pleas

Two judges from different Ohio communities will provide an overview of the local implementation of the Addiction Treatment Pilot Project. The Addiction Treatment Pilot Project is designed to provide addiction treatment, including medication-assisted treatment, to persons who are offenders within the criminal justice system, eligible to participate in a certified drug court program, and selected to be participants in the pilot program because of their dependence on opiates.

Session #20

Summit County ADM MAT Pilot Projects

John Ellis, LISW-S, LICDC-CR, ICCS, Manager of Clinical Services, County of Summit Alcohol, Drug Addiction, and Mental Health Board

This presentation will highlight the County of Summit Alcohol, Drug Addiction, and Mental Health Services Board's efforts to improve chances for recovery for an individual with an opiate addiction by using medication-assisted treatment. Attendees will learn about two pilot projects led by the Summit ADM Board in partnership with local providers that provide fixed low-dose Suboxone with counseling. Attendees will learn about initial findings and lessons learned from the pilot projects.

BREAKOUT SESSIONS

3:00pm-4:30pm

Session #21

The County Model for Addressing Opiate Issues in Child Welfare

Timothy Dick, Deputy Director, Clermont County Children's Protective Services

A panel of child welfare experts will provide information about local programs and initiatives designed to address opiate and child welfare issues in communities throughout Ohio. During this session, participants will learn about innovative solutions and promising practices. The panel will also provide information about how these programs can be replicated in other communities as well as share details about the work of the Child Welfare Opiate Engagement Project.

Session #22

A Recovery Oriented System of Care

Lionnetta Albright, Executive Director, Great Lakes Addiction Technology Transfer Center

A Recovery Oriented System of Care (ROSC) is a behavioral health system that focuses on the individual and family in need of recovery services, building on their strengths and incorporating a coordinated and collaborative approach across the community. A ROSC includes prevention, intervention, treatment, and recovery supports, all focused on getting the individual into recovery and helping them integrate into the community and workforce as much as possible. Attendees will learn about designing and implementing a Recovery Oriented System of Care.

Session #23

Prescriber Guidelines: A Regulatory Update from the Medical Board

Bill Schmidt, JD, Senior Counsel, Investigations, Compliance & Enforcement, State Medical Board of Ohio

This session will provide an overview of the guidelines for prescribing opiates for the treatment of chronic, non-terminal pain and the guidelines for office based opiate treatment. During this session, participants will hear about the lessons learned in developing these guidelines, the efforts to educate physicians about the guidelines, and the work of the State Medical Board as the regulatory body as they are implemented.

Session #24

SBIRT: Re-Conceptualizing our Understanding of Substance Use Problems

Stephen H. O'Neil, MA, Director, Ohio SBIRT Project, OhioMHAS

This session will provide attendees with the evidence base for the practice of Screening, Briefing Intervention and Referral to Treatment (SBIRT), define the conceptual framework for addressing substance use as a public health problem, explore the myths surrounding working with substance using populations, and provide an overview of the clinical practice that is the foundation for successful behavioral change.

WHO SHOULD ATTEND?

Physicians, Nurses, Clinicians, Pharmacists, Social Workers, Psychologists, Attorneys, AOD Professionals, Administrators, Medical Professionals, Criminal Justice Professionals, Community Leaders, Coalition Members, Parents, and anyone interested.

EXHIBITOR/SPONSOR OPPORTUNITIES
