

Procedure Codes considered for payment within MACSIS under HIPAA
Codes to be used by both ODMH and ODADAS

Service Code Description	Former MACSIS Code	Cert. Reference	Health Care Or Non-Health Care	Code Description	Type of Code	Proposed Time Increment	Diagnosis Required ¹
Individual Counseling	M1410 A0120	5122-29-03 3793:2-1-08(N)	Medicaid Health Care	BH Counseling and Therapy	HCPCS H0004	15 minute	Yes
Hotline	M3110 A0530	5122-29-08 3793:2-1-08(H)	Non-Medicaid Health Care	BH Hotline Service	HCPCS H0030	Hourly	Yes Use NDX

- Healthcare services versus non-healthcare services are broadly grouped as follows:
 - In this case Healthcare applies to those services where CMS assigned a healthcare code and/or description that generally aligns with the ODMH definition and non-healthcare applies when a code or its description does not align with a code assigned by CMS.
- Updates to the OAC may be necessary to properly align standard procedure codes and definitions.
- This Procedure code table should be used in combination with the ODMH Modifier table (<http://www.mh.state.oh.us/assets/macsis/codes/mh-hipaa-modifier-code-table.pdf>) to assure accurate claims pricing and adjudication and the ODMH Same Day Service Reporting: Roll-up Categories for Duplicate Checking (<http://www.mh.state.oh.us/assets/macsis/claims/mh-rollup-categories-for-duplicate-checking.pdf>).

¹ With the required use of the HIPAA v5010 837P on January 1, 2012, a diagnosis code and a diagnosis pointer are required on all claims. ODMH has put the “NDX” in the MACSIS diagnosis table to facilitate payment of “non-health care” type services.
