WHY SOCIAL AND EMOTIONAL WELLNESS IS IMPORTANT!

Children who...

- Follow directions
- Communicate well
- Develop positive relationships with peers and adults
- Stay on task
- Feel good about themselves

...are better prepared for school and later success in life.

REASONS TO REQUEST A CONSULTATION

- To better respond to individual children displaying disruptive and aggressive behaviors
- To promote healthy social and emotional development for young children
- To support families and early child care professionals' capacity to meet children's social and emotional needs

Early Childhood Mental Health (ECMH) Consultants provide support services to help children succeed in early learning environments.
