Map Information:

This map examines change in the daily morphine milligram equivalents (MMEs) per capita from 2010 to 2012. Most prescription analgesics in the OARRS system (>97%) have a morphine equivalence as established by the Centers for Disease Control. On average, daily MMEs decreased by 9.2 percent during this time. Counties experiencing the greatest increase in daily MMEs per capita were Ottawa (11.5%), Morrow (10.2%) and Fulton (8.6%). Counties experiencing the greatest decrease in daily MMEs per capita were Montgomery (-36.0%), Scioto (-27.2%) and Mercer (-21.6%).

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
