

Medication Assisted Treatment in Ohio

OARRS - Change in doses per 100 people from 2013 to 2014

Legend

Map Information:

This map represents county-level data on drugs commonly used in medication assisted treatment (MAT). It presents the change over time in MAT rates per 100 people for buprenorphine drugs like Suboxone® and Subutex®. From 2013 to 2014 most counties experienced an increase in MAT rates per 100 people. Counties experiencing the greatest increases in MAT rates were Allen (84.4%), Noble (80.6%) and Washington (49.2%). Only three counties experienced a decrease in MAT rates per 100 people.

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
