

SSI/SSDI Outreach, Access, and Recovery

Interest Form

SOAR (SSI/SSDI Outreach, Access, and Recovery) is an evidenced-based, community approach that helps increase access to disability benefit programs administered by the Social Security Administration. SOAR's target population is individuals who are homeless or at-risk of becoming homeless, and living with a mental illness and/or physical disability. When communities implement a SOAR initiative, a higher percentage of clients who are homeless and disabled are awarded benefits in an expedited time frame. To learn more, please visit: <http://www.prainc.com/soar/>

If you are interested in starting a SOAR community initiative in your area, please fill in the form below and return it to COHHIO staff or email ravenbias@cohhio.org with the information below.
