Using Data to Communicate the Value of Alcohol Prevention Programming

Justin Beck & Katie Wood

- How Alcohol Impacts Institutional Mission
- Using Data to Communicate the Value of Alcohol Prevention Programming
 - What data from your AlcoholEdu data set will communicate value?
 - How can you maximize the data you have to gain more insight to alcohol use on campus?
 - What else could you be collecting to compliment what you already have access to through AlcoholEdu?
- Moving Forward
 - How can you get these data insights for your campus?
 - How can you share data to key stakeholders?
 - How do you garner support for these types of programs on campus?
