Subject: SOR GPRA Data Collection Interview

Dear Ohio State Opioid Response Grant Awardee,

SAMHSA and the Office of Budget and Management released the final SOR GPRA Data Collection Interview Tool. It is, unfortunately, not the tool which was provided to us at the start of the State Opioid Response grant. It is the shorter and more broadly utilized CSAT GPRA tool. An additional benefit is the reduction in the number of required interviews from 4 to 3 through the removal of the 3 month follow up interview.

Please continue data collection utilizing the current SOR GPRA Data Collection Application and Interview until the roll out of the new system on July 15, 2019.

If you are currently using the excel spreadsheet to collect data on one-time contacts, please continue to send them to your project lead by the 15th of each month. If you are unsure where to send the form, please send ellen.augspurger@mha.ohio.gov.

OhioMHAS and Wright State University are partnering to provide 2 webinar trainings for providers who already utilize the SOR GPRA Application and 2 webinar trainings for providers new to the GPRA Data Collection Application. Registration for the webinars is found at: https://www.sardiprogram.com/sor. The trainings are scheduled for July 10 -12, 2019.

If you need access to the SOR GPRA Application and the OhioMHAS iPortal please send an email request to Jennifer.Lewis@mha.ohio.gov with the following information:

1. Name
2. Organization
3. All locations where interviews may conducted, including the address of each location
4. The ADAMHS board the funding is provided through (as applicable)
5. Request for access to the iPortal (as applicable) and the SOR GPRA application and training application.

Additional information, including a copy of the interview tools can be found at: https://www.samhsa.gov/grants/gpra-measurement-tools.

The OhioMHAS SOR GPRA Application will be updated to the CSAT GPRA tool on July 15, 2019. Please ensure that all staff who will be entering GPRA data into the application receive training prior to July 15, 2019.

Thank you,

Ellen Augspurger SOR Project Director
