Ohio Department of Alcohol and Drug Addiction Services (ODADAS)
SFY 2014 Prevention Guidance for Applicants (GFA)

Mission Statement
To provide statewide leadership in establishing high-quality addiction prevention, treatment and recovery services system of care that is effective, accessible and valued by all Ohioans.

Introduction
The State Fiscal Year (SFY) 2014 Prevention Guidance for Applicants (GFA) provides applicants with the requirements for the SFY 2014 continuation grant application and sets forth the process by which each grant application will be submitted and reviewed. This current grant application will cover a one-year period from July 1, 2013 through June 30, 2014 (SFY 2014).

Availability of funds
Funding will depend on the availability of state and federal funds for SFY 2014. Should funding be reduced below the estimated level, the amount of funds available for the grant may be reduced or terminated per written notice to the applicant by ODADAS. Applicants can apply for no more than the final amount awarded during SFY 2013.

Eligible Applicants
SFY 2013 one time grantees are not eligible for SFY 2014 funds.
Applications will only be accepted from public and private non-profit organizations that provide alcohol and other drug prevention services and were awarded Prevention GFA grants during SFY 2013. The available funding amount for SFY 2014 is listed as an attachment to the SFY 2014 Guidance for Applicants (GFA) letters sent to SFY 2013 grant recipients.

ODADAS is accepting grant applications from eligible Boards and Providers for the following prevention grant program areas:

UMADAOP
The purpose of these funds is to provide alcohol, tobacco and other drug prevention services in Ohio through community based programs that provide culturally appropriate services to African American and Hispanic/Latino communities without age restrictions.

Higher Education
The purpose of these funds is to address the Higher Education High Risk Drinking Prevention Initiative on campuses and in communities.

Drug Free Community Coalitions
The purpose of these funds is to help communities build on locally driven drug-free coalitions to deal with community alcohol, tobacco and other drug use/abuse needs and to mobilize and promote healthy youth development. This initiative is intended to stimulate the adoption of effective or promising approaches through convening partners, building consensus, aiding in eliminating barriers, decision-support and adaptation of service models to meet local needs.
Community Prevention
The purpose of these funds is to target community-based programs that provide alcohol and other drug prevention services to designated special population groups. These groups include, but are not limited to: deaf or hearing impaired, migrants, physicians, school dropouts, women, and senior citizens.

Restrictions
Grant funds may not be used for: cash payments to recipients of services, vehicle purchase, capital improvement, construction, professional or credentialing fees, licenses, fines, penalties or to supplant existing funds for staff or programs. Vehicle lease is permissible when pre-approval is received from ODADAS prior to signing the lease agreement.

POPS Grant Application Process
In SFY 2014, all current ODADAS grant funded prevention grantees will submit application requirements in the Proving Ohio’s Prevention Success system (POPS). The POPS system will be available for the SFY 2014 GFA Grant Application submission beginning April 5, 2013. The prevention grantees are required to submit all application requirements electronically by the submission deadline, May 3, 2013. Technical assistance is available for the POPS Grant Application Process. Contact the Division of Prevention Services AOD Program Specialist for POPS system and program related questions or the Grants Coordinator for fiscal or business related questions. Please see the attached ODADAS Contact list for the appropriate contact.

Applicants will access POPS and choose SFY 2014 (July 1, 2013 - June 30, 2014) from the drop down list to begin the GFA process. Applicants will need to develop the Prevention Funding Application in the POPS system. Once the applicants complete all components of the Prevention Funding Application, the status must then be changed from Draft Completed to Provider Approved by the Executive Director or Designee. An e-mail will be generated to ODADAS staff indicating that this application is ready to move forward to the review process. **All components of the Prevention Funding Application must be completed and Provider Approved by 5:00p.m May 3, 2013, in order to meet the requirements for submission.**

Once the Prevention Funding Application is approved by ODADAS, a Notice of Award will be released. Step by step instructions for completing the Prevention Funding Application are available in the POPS document library.

Prevention promotes the health and safety of individuals and communities.

Prevention focuses on preventing or delaying the onset of behavioral health problems (i.e. substance abuse, addiction and problem gambling).

Prevention services are a planned sequence of culturally appropriate, science-driven strategies intended to facilitate attitude and behavior change for individuals and/or communities. These services do not include clinical assessment, treatment or recovery support services.

Prevention Strategies

Information Dissemination
This strategy focuses on building awareness and knowledge of the nature and extent of substance use, abuse and addiction and the effects on individuals, families and communities, as well as the dissemination of information about prevention. It is characterized by one-way communication from source to audience, with limited contact between the two. (This strategy is not designed to be conducted alone but as a part of a comprehensive evidence-based approach.)

Education
This strategy focuses on the delivery of services to target audiences with the intent of influencing attitude and/or behavior. It involves two-way communication and is distinguished from information dissemination by the fact that interaction between educator/facilitator and participants is the basis of the activities. Activities influence critical life and social skills including decision making, refusal skills, critical analysis and systematic judgment abilities. The target audience does not include individuals already diagnosed with addiction.

Community-Based Process
This strategy focuses on enhancing the ability of the community to provide prevention services through organizing, training, planning, interagency collaboration, coalition building and/or networking.

Environmental
This strategy focuses on a broad range of services geared toward reducing the incidence and prevalence of substance use/abuse and addiction in the general population. Community norms and access to and availability of substances are modified through media, messaging, policy and enforcement activities.

Alternatives
This strategy focuses on providing opportunities for positive behavior support as a means of reducing risk taking behavior, and reinforcing protective factors. Alternative programs include a wide range of social, cultural and community service/volunteer activities. (This strategy is not designed to be conducted alone but as a part of a comprehensive evidence-based approach.)

Problem Identification & Referral
This strategy focuses on referring individuals who are currently involved in primary prevention services and who exhibit behavior that may indicate the need for behavioral health or other assessment. (This strategy is not designed to be conducted alone but as a part of a comprehensive evidence-based approach.) This strategy does not include clinical assessment and/or treatment for substance abuse.
