Section I: Executive Summary

The data in this report are compiled based on all Preadmission Screening (PAS) and Resident Reviews (RR) completed for the Ohio Department of Mental Health and Addiction Services PASRR Bureau. In 2018, KEPRO and MHAS processed 5,978 Preadmission and 6,975 Resident Review applications, for a total of 12,953 cases.

KEPRO's contracted turnaround time (TAT) for expedited assessments originating from psychiatric units is 24 hours from receipt of application. For 2018, KEPRO completed 3,899 expedited assessments for individuals diagnosed with serious mental illness (SMI), of which 118 were for individuals with dual diagnosis (SMI & Intellectual Disability/Related Condition). KEPRO's average TAT for expedited assessments was 24.1 hours. The overall TAT for all expedited reviews from receipt of the application to issuing notification of results was 37.6 [1] hours during the year.

KEPRO's contracted turnaround time (TAT) for all non-expedited PAS and RR assessments is 3-5 calendar days. KEPRO's total average TAT for non-expedited assessments for 2018 was 1.3 calendar days, which met the contract deliverable. The federal standard for completion of PASRR assessments is 7-9 business days, which Ohio MHAS exceeded by completing all assessments in 1.3 business days on average.

---

[1] Excludes TAT for dually-diagnosed cases, since MHAS does not control TAT by the DD system.

Section II: Summary of Review Demographics

The figure below represents all PASRR assessments by age group and percent of overall volume.
