

5122:3-1-09 Standards of construction.

(A) Standards of construction. Any project, when completed and ready for occupancy or operation, shall meet all standards and requirements of applicable federal, state and local statutes and ordinances, state and local building and fire codes, and standards and requirements to make the project eligible for funds for operations and client care and treatment.

(B) Programmatic requirements. The project shall be designed and constructed to meet all program and licensure requirements of the department, if applicable, and comply with the program as indicated in the application unless a modification has been approved by the department.

Effective: 12/11/2014

Five Year Review (FYR) Dates: 09/22/2014 and 12/11/2019
