

Community Overdose Action Team

Working Together To Combat Overdoses and Drug Abuse

Ohio Mental Health and Addiction Services (OhioMHAS) Private Psychiatric Hospital Conference

October 18, 2019

Judy Dodge, Montgomery County Commissioner

Jodi Long, Montgomery County Alcohol, Drug Addiction, and Mental Health Services

Objectives

- Describe the benefits of responding to a community wide behavioral health emergency using a public health perspective
- Identify key system partners needed to implement an incident command system response to a behavioral health emergency
- Articulate the principles of collective impact & its importance to community collaboration
- Describe the components of an Incident Command System and how it can be applied to a behavioral health emergency

2017 State of Ohio Overdose Death Rate

Opioid Crisis Alignment Challenges

Many centers of excellence in the community BUT were struggling to align countywide efforts to change the trend

- Existing coalitions
- Hospital systems
- 30+ treatment providers
- Recovery support providers
- Prevention providers
- Harm reduction programs
- Business community
- Other community agencies

What Led to the Development of the COAT?

In late summer of 2016, Montgomery County Commissioners approached ADAMHS and Public Health to create and lead a unified county-wide response to organize system partners.

Incident Command System Structure

Used to manage complex multi-agency, multi-jurisdictional incidents / events

- Eliminates duplicative efforts
- Allows for shared decision making
- Requires constant communication
- Uses an Incident Action Plan
- Scalable to meet the needs of the incident / event

Incident Action Plans & Situational Status Reports

Incident Action Plan Community Overdose Action Team (COAT)

Operational Period: March 1, 2019 to April 30, 2019

Community Overdose Action Team
Working Together To Combat Opioid Overdoses

Situational Status Report Community Overdose Action Team (COAT)

1. Situation to date

- Per the Montgomery County Coroner's Office, there were 566 accidental overdose deaths for calendar year 2017.
- Per the Montgomery County Coroner's Office, there were 290 accidental overdose deaths for calendar year 2018 (death data for December still preliminary).
- This is a 49% decrease in accidental drug overdose deaths from 2017 to 2018.
- Per the Montgomery County Coroner's Office, there were 24 accidental overdose deaths as of January 31, 2019.
- The 2018 COAT Annual Report and 2018 COAT Data Report are in the final stages of revisions. Both documents should be ready for public distribution by the end of this operational period.
- COAT leadership presented to and/or met with multiple organizations from across the country to present on successes of the initiative. Organizations include: Executive Director of National Institute on Drug Abuse (NIDA); Hand in Hand from Lake County, FL; government officials from Madison, WI, Grove City, OH, and Lucas County, OH.
- COAT members met for a roundtable discussion with Governor Mike DeWine.
- COAT members met with Mayor Whaley and individuals from Denial Ohio.
- Operational period currently stands at 60 days.

2. Actions to date

- Steering Committee
 - Last meeting held October 24, 2017
 - Provided feedback to the Backbone Support and Operations Branches.
- Backbone Support
 - Last meeting held January 8.
 - Provided feedback on the Operations Branches and the Data Unit.
- Operations Section
 - Met on February 25.
 - Branch leads provided a verbal update on progress to date, actions and shared information among members.
 - Discussed the need to annotate completed actions for Branches.
- Operations Branches
