

Resources for Psychiatrists

With COVID-19 evolving rapidly across the world, APA's Committee on Psychiatric Dimensions of Disasters and the APA's Council on International Psychiatry compiled the following list of resources for psychiatrists. The resources cover not only the physical impact of the coronavirus, but on its potential mental health and psychosocial issues and responses. The resources also include a section on telepsychiatry, to prepare for the possibility of isolation and/or quarantine.

Webinars

APA is producing webinars to provide up-to-date information as the situation evolves.

[How to Address COVID 19 Across Inpatient, Residential and other Non-Ambulatory Care Settings](#)

- *Faculty: Harsh Trivedi, M.D., M.B.A.; Ryan Kimmel, M.D.; Frank A. Ghinassi, Ph.D.*

In this free webinar from APA and the National Association for Behavioral Healthcare (NABH), hear from experts about how to manage different types of services, key messages to give to your team leaders, unique challenges for people with SMI, how to handle group therapy, and more.

[Access Recording](#)

[Telepsychiatry in the Era of COVID-19](#)

- *Faculty: Peter Yellowlees, MBBS, M.D.; John Torous, M.D.*

This free webinar from SMI Adviser (APA & SAMHSA) offers learners an overview of how to use telemental health and video visits in the changing landscape surrounding the 2020 COVID-19 pandemic.

[Access Recording](#)

[Managing the Mental Health Effects of COVID-19](#)

- *Faculty: Joshua C. Morganstein, M.D., CAPT; Stephen J. Cozza, MD, COL*

This free webinar from APA will outline how psychiatrists can support patients, communicate with family members and children, and be a resource to other providers during the COVID-19 outbreak.
