

Morphine Milligram Equivalents per Patient

Ohio's Automated Rx Reporting System - 2008

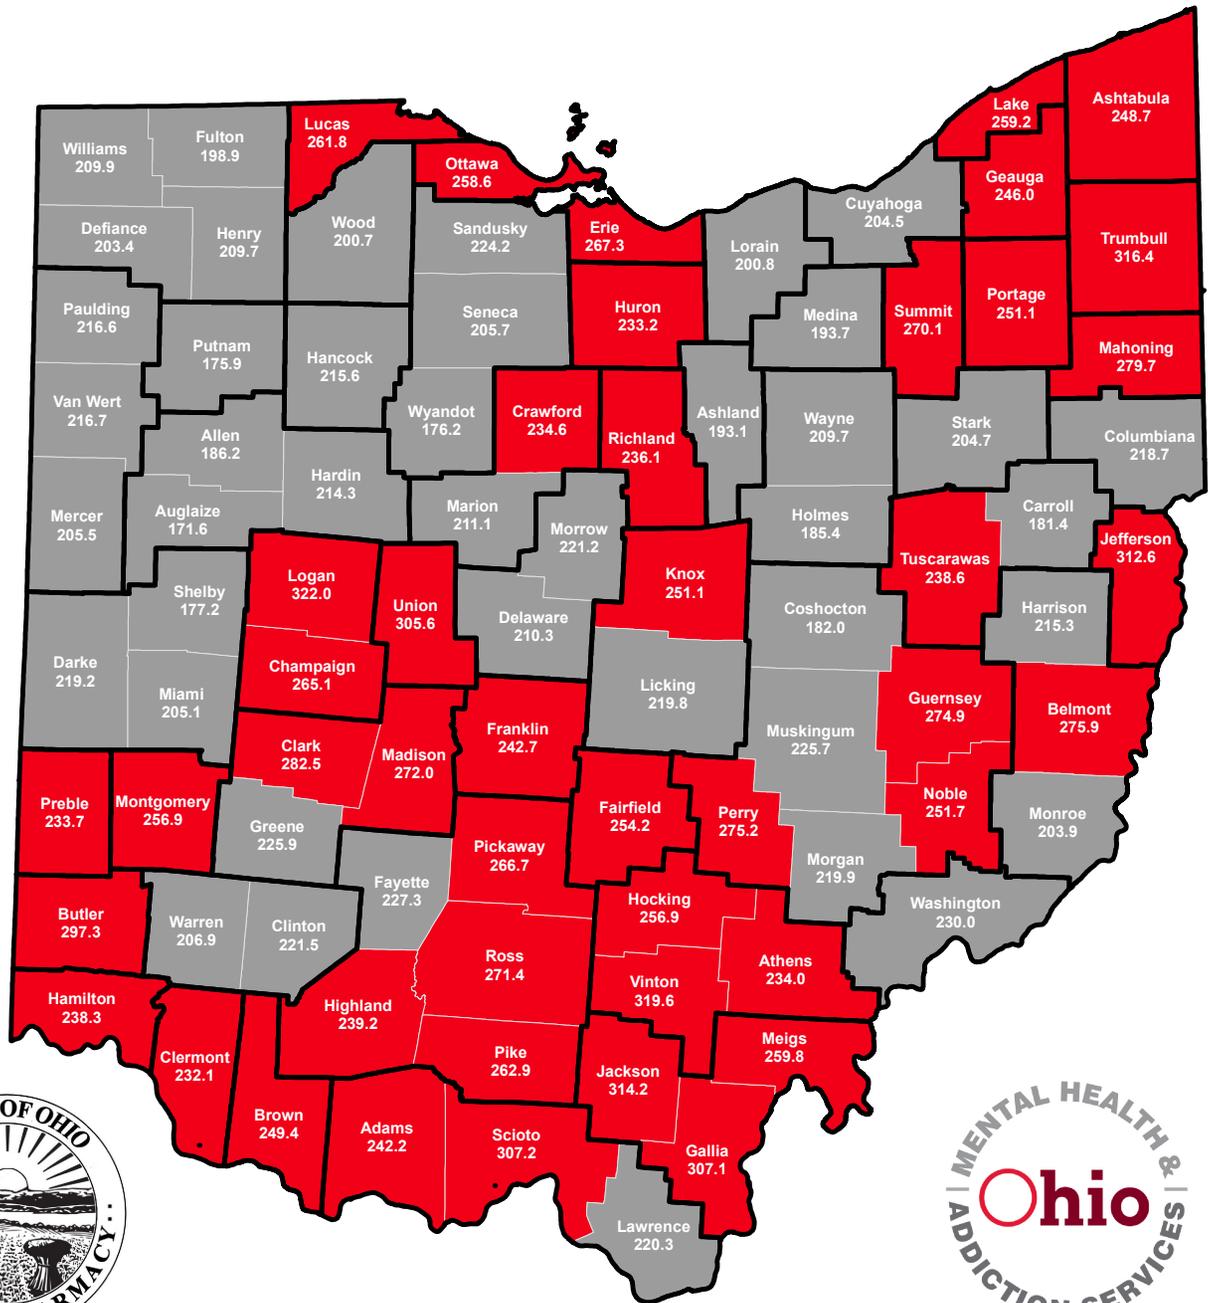

Legend

Map Information:

This map examines morphine milligram equivalents (MMEs) per patient in 2008. Most prescription analgesics in the OARRS system (>97%) have a morphine equivalence as established by the Centers for Disease Control. On average, patients with one or more prescription analgesics received 236.8 mg of MME during the course of the year. Counties with the highest MMEs per patient were Logan (322.0 mg), Vinton (319.6 mg) and Trumbull (316.4 mg). Counties with the lowest MMEs per patient were Auglaize (171.6 mg), Putnam (175.9 mg) and Wyandot (176.2 mg).

Note: Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Boards have black borders, and counties have white borders. Borders are black in cases where ADAMHS boards and counties have the same borders.
