Stepping Up: Next Steps

June 16, 2016

Tracy J. Plouck, Director

We’ve stepped up… Now what??
Step One

Before you leave today:

• Each team completes a one-page questionnaire
  • Which TWO AREAS do you want to focus your energy, based on what you’ve learned today?
  • Who is your contact person?

Step Two

When you return to work:

• Check the http://mha.ohio.gov/steppingup website
  • Tool kits
  • Assessment materials
  • Community examples (Ohio & beyond)
  • Upcoming training, grant opportunities
Stepping Up Ohio website:

Step Three

• You’ll be contacted by Julie Spohn from OhioMHAS regarding technical assistance for your specific community
  • Based on your priority areas from this afternoon’s questionnaire
  • All suggestions are optional for your consideration
  • We can field questions & make additional referrals at any time

Technical Assistance

Approaches (and examples):

• Statewide information available (by topic) to help all counties with planning & implementation

• Targeted assistance to individual counties

• Policy/operational infrastructure improvements: state-led with county assistance
Step Four

- An on-site assessment will be offered to better understand the types of technical assistance that may be helpful
  
  - Data collection, financing, best practices, etc. (May be in addition to the 2 priorities that you indicate today)
  
  - Melissa Knopp from Hocking College will be leading the assessment team

Step Five

- Share what you’re learning with other counties – it’s not too late for others to pass resolutions!
  
  - Justice Stratton will visit for a community meeting to discuss the initiative
  
  - We will be featuring spotlight videos on the website and may be asking your team to participate
Step Six

• OhioMHAS will be working with current community innovations grantees to focus on targeted technical assistance areas for FY 17

• We will be examining opportunities to continue to support this work as we develop the FY 18/19 budget proposal

Thanks to our Advisory Team
