## Overview

The Ohio Department of Mental Health and Addiction Services (OhioMHAS) is committed to providing a comprehensive continuum of alcohol and other drug (AOD) treatment services. The continuum begins at Ohio Department of Rehabilitation and Correction (DRC) reception centers where inmates receive an AOD screening. For inmates with AOD problems identified by the screening, the next phase of the AOD treatment continuum is provided at parent institutions. A variety of treatment services are offered based on the institutional mission, physical capacity and staffing. Inmate participation in these programs is completely/strictly voluntary.

Upon completion of a treatment program, the counselor works with the inmate to develop a continuing care plan. This plan will include participation in institutional AOD aftercare activities while incarcerated and a referral to community care when released. AOD services for offenders under DRC supervision in the community are coordinated by eight Chemical Dependency Specialists (CDS). The CDS's are responsible for developing treatment resources, making referrals and providing AOD assessments and interim services to aid with transition back into the community/society.

## State Partners

The Ohio Department of Mental Health and Addiction Services along with the Ohio Department of Rehabilitation and Correction have formed a partnership to leverage the combined expertise of each agency in order to provide increased treatment within the prisons and ensure a better connection to clinical and recovery supports for offenders upon release.

## Community Partners

CompDrug, Inc., Columbus, Ohio

- TAPESTRY Therapeutic Community at Ohio Reformatory for Women
- OASIS Therapeutic Community at Pickaway Correctional Institution
- Conquest Therapeutic Community at Chillicothe Correctional Institution
- Stepping Stones at Grafton Correctional Institution
- VISTA at Madison Correctional Institution
- SHIELD at Noble Correctional Institution

Community Assessment Treatment Services, Cleveland, Ohio

- Day Treatment Program at Northeast Reintegration Center

Alcoholics Anonymous

Narcotics Anonymous

Cocaine Anonymous

Dual Recovery Anonymous

Celebrate Recovery

## Recovery Services Reentry Initiatives

The link between substance abuse and criminal activity has been well documented. Research shows that the treatment of drug abusing offenders while incarcerated can be very effective. Additional research also shows that treatment gains while incarcerated can be diminished unless follow-up services are utilized in the community.

The following initiatives comprise the Bureau of Correctional Recovery Services' efforts to provide a seamless system of transition to the community for offenders who have completed AOD treatment while incarcerated:

- Chemical Dependency Specialists (CDS)

The CDS's are charged with ensuring that offenders are appropriately linked with community aftercare services. A total of eight CDS staff are located throughout the state. CDS staff is responsible for the following:

- assessing offender needs
- refer to support and treatment activities
- increasing access to community AOD programs
- conducting some direct treatment
- crisis intervention

- Community Transition Program

The purpose of the Community Transition Program (CTP) is to expand existing community capacity to continue treatment services and provide access to recovery supports for individuals with substance use disorders returning to the community. CTP provides access to housing resources, vocational services, peer support and other nontraditional recovery services as needed for the client.

- Tapestry Alumni Association

The Tapestry Alumni Association is composed of over 700 women who have completed the Therapeutic Community (TC) program at ORW and returned to the community. Their goal is to continue personal growth and remain in recovery. They meet every six-weeks in several Ohio cities to discuss projects and activities in which they can support each other, encourage and be role models for those women currently in the Tapestry TC, and give back to the community.

- Winners Circles

The purpose of Winners Circles is to create a means for ex-offenders to live safe, sober and crime-free lifestyles. Together, members develop pro-social tools to apply to problems related to addiction and criminal activity. Groups meet on a weekly basis to discuss the challenges and complexities of life unique to people who have been incarcerated.

**ODRC Inmate Participants in AOD Programming  
Number and Percent of Participants in FY 2016 - 11,148 (100%)**

- Substance Abuse / Mentally Ill    ■ Tobacco Cessation    ■ Intensive Program Prison
- Outpatient    ■ Therapeutic Community    ■ Recovery Maintenance
- Intensive Outpatient    ■ Treatment Readiness    ■ Self-Help / Peer Group
- Brief Intervention Program    ■ Treatment Transfer Program

**Bureau of Recovery Services Annual Report  
FY 2016  
Report Definitions and Key**

**Definitions**

Alcohol and Other Drug Education Services – An AOD service that helps to deliver the knowledge of the consequences and effects of substance use. This service can be used for ancillary programming and can be offered to general population inmates. When this service is used as ancillary programming for IOP participants it must be facilitated by licensed Recovery Services staff members. When this service is used for general population inmates it may be facilitated by either licensed Recovery Services staff members, institution staff or volunteers.

Brief Intervention Program (Breaking the Cycle) – A 6 week, 24 hours cognitive behavioral program that uses evidence-based strategies to assist inmates as they work to make positive changes in their criminogenic toughs and behaviors and patterns of substance use.

AOD Treatment Readiness Program - The AOD Treatment Readiness Program is a 48-hour program delivered daily for a minimum of 12 hours a week. A minimum of ten of the hours must be cognitive behavioral treatment specific. The remaining hours shall consist of ancillary services. This program incorporates the stages of change model to focus on participant motivation and readiness that will enhance treatment engagement and retention. This program is offered to Recovery Services level 2 and 3 inmates.

Intensive Outpatient Program (IOP) – The Intensive Outpatient Program is a 144-hour program that provides treatment services delivered daily for a minimum of 12 hours a week. A minimum of ten of the hours must be cognitive behavioral treatment specific. The remaining hours will consist of ancillary services.

Recovery Maintenance Program – Recovery services provided following the successful completion of the Recovery Services Intensive Outpatient Program that consists of two 1-hour, or one 2-hour professionally facilitated group meetings per week for a total of 8 weeks (16 sessions).

Recovery Services Level of Care (RSL) – The Recovery Services level of Care designates the level of need for AOD Services: R0 = None, R1 = Minimal Need, R2 = Moderate Need, R3 = Considerable Need.

Intensive Program Prison (IPP) – A 90-day program focusing on education, training, work, substance abuse treatment, community service, conservation work, and/or other programs designed to provide intensive programming for eligible inmates in accordance with Ohio Revised Code 5120.32. Upon successful completion of this program, the inmate's sentence may be reduced to 90 days and the inmate will then serve a transitional type of detention followed by a release under post-release control sanctions or, in the alternative, will be placed immediately under post-release control sanctions.

Outpatient Services (OP) – Treatment Services that are provided less than eight hours per week in regularly scheduled sessions for program participants who reside in general population.

Self-Help / Fellowship / Alcoholic Anonymous (AA) / Narcotics Anonymous (NA) Meetings – An independent support / fellowship group organized by and for drug abusers and alcoholics to help members achieve and maintain abstinence and/or cope with the effects of drugs and alcohol.

Substance Abuse and Mentally Ill (SAMI) – Treatment services that are provided for those inmates determined to have co-occurring substance use and mental health issues.

Texas Christian University Drug Screen 5 (TCU) – The TCU is an instrument that serves to identify individuals with a history of drug use or dependency and who therefore should be eligible for treatment options.

Therapeutic Community (TC) – A treatment modality that uses an offender hierarchy in which treatment stages are used to reflect personal and program growth.

Treatment Transfer Program – A 4 week treatment program that is a component of the Treatment Transfer initiative specified in HB64. This 4 week treatment program entails providing the Treatment Readiness Program phase of the Intensive Outpatient Program to those eligible inmates identified for this initiative.

Voluntary Tobacco Cessation Program – A structured voluntary program of education, group discussion, counseling, peer support and written assignments to assist inmates in achieving a tobacco free lifestyle.
