Building Supportive Systems: Lessons Learned From Partnering with Schools and Communities

How three communities built partnerships bridging relationships between schools and community partners
Our goals for you

- Learn about our experience
- Provide insight into our lessons learned
- Consider where your community is presently with partnership building and collaboration
- Identify a next step in your community
Identification of Local Needs
Linking Schools, Community and Community Management Teams

Putting Social, Emotional and Mental Health at the top of our schools' agenda
Leadership

Don't find fault, find a remedy.

- OUTSTANDING
- Excellent
- Very Good
- Average
- Below Average
Lessons Learned

recognize mistakes
observe what works
document them
share them
Relationships Matter

It is a long road to go it alone
Build Community Management Teams from all Sectors

BUILDING A WINNING TEAM

1. Connect with each other
2. All commit to a goal
3. Plan collaboratively
4. Everyone contributes equally
5. Allocate to natural strengths
6. Support and encourage each other
7. Work fast and stay on track
The Job is Never Done—continually educate and recruit as needs shift.
We are in this together...how can we help each other?

Alone we can do so little; together we can do so much.
