

**Questions related to the Emergency Department Grant – Request for Applicants  
Number MHA-18-MEDDIR-ASAMCriteriaTraining-24**

Q: I am reviewing the ASAM Criteria Training RFA and curious as to whether awardee is expected to develop the in-person and online training curricula as part of the RFA. Is there already an established ASAM criteria training curricula that the awardee will be expected to implement? Or, is the awardee expected to have an ASAM criteria training curriculum developed prior to receipt of the award?

A: None of the funding may be used to develop new in-person and online training curricula. Rather, the awardee must rely on current materials they have developed or that others have developed. Please see the following examples here: <https://www.changecompanies.net/etraining/>
